

Editor's Note

Volume 21 of the *MIFLC Review* features work that was originally presented at the 2021 MIFLC meeting, a virtual experience hosted by Furman University. While Covid-19 prevented an in-person conference, my colleagues on the Editorial Board and I were delighted to see that our members were able to present their work and engage in meaningful exchanges, the evidence of which is apparent throughout this volume.

As has become the custom, the Ulloa Award, which recognizes the lifelong contribution of Professors Leonor and Justo Ulloa to the journal and the organization, will be presented at our 2022 meeting.

I am exceedingly grateful to my members of our *MIFLC Review* editorial team, who again worked tirelessly to bring this volume to completion. Andrea Meador Smith, our Managing Associate Editor, has invested countless hours in preparing this volume for publication. She is ready to step into the Editor's role, commencing with our upcoming Volume 22. I look forward to seeing the *Review* thrive under her leadership.

On behalf of my colleagues on the Editorial Board and on the Executive Committee, we wish you the best and hope to see you soon.

With best wishes,

Jeremy L. Cass
